

BE THE LIFELINE MERCYONE GENESIS NEEDS

Donating is easy, safe, and rewarding. With multiple drives planned in 2025, there's no excuse not to make a difference.

YOUR BLOOD: IT NEEDS TO BE YOU

Human blood cannot be manufactured; it can only come from volunteer donors. This makes **continuous blood donation essential for maintaining a stable supply for hospitals and patients in need.** Donated blood has a limited shelf life, so regular contributions are critical to ensure there's always enough to treat emergencies, surgeries, and chronic illnesses. Hospitals like MercyOne Genesis often transfuse more blood than our community collects. Blood has no substitute. It must come from generous volunteer donors like you.

YOUR HOSPITAL - MERCYONE GENESIS

MercyOne Genesis chose LifeServe Blood Center to be their sole provider of blood and blood products to ensure the best possible patient care and a safe and stable community blood supply. When donors donate with another blood collection organization within our community, their local donation does not support their local hospital. **Only blood collected by LifeServe Blood Center is provided to our local hospitals, including MercyOne Genesis.**

YOUR NEIGHBORS - THE NEED IS URGENT

Every day, countless patients depend on the generosity of volunteer blood donors to give them a fighting chance. When you donate blood, you're not just giving a pint; you're offering hope, courage, and a future. Your blood might be the miracle that saves someone's life in an emergency, during a surgery, or while battling a serious illness. The need is urgent, and every drop counts. **Donate blood with LifeServe Blood Center and be the lifeline that keeps our community thriving.**

Dear donor,
I can't thank you enough for your blood donation. A couple weeks ago, I had my very first baby (a girl) and unfortunately I had some complications post-birth where I needed two blood transfusions. Your generous donation has allowed me to heal and be able to spend this precious time with my baby, so thank you.
